Passengers arriving in international flights are often weary and, in a hurry, to get back home. They do not have the patience for the delays in Customs screening. Modern airports continuously strive to speed disembarked passengers through immigration, handbag screening, and customs, without compromising on duty revenue opportunity and security.

EnTrackBag provides a non-intrusive, low touch, subtle and yet a practical solution that delivers a great customer experience without compromising on customs revenue opportunity and security.

Major airports have relied on **EnTrackBag** to process millions of bags at arrivals to seamlessly track over 10 Million+ suspected bags with increased customs revenue and superior passenger experience without queue building. Unobtrusive identification, contraband linked graded alert, direct retrieval of the x-ray image, networked suspect passenger database, have been the main reasons for the system popularity and adoption. EnTrackBag Integrates with BHS, IT, security and X-Ray screening system to add significant value to airport operators and customs department in enhancing security and passenger experience.[/vc_column_text]
