[vc_column_text css_animation="fadeIn"]

EnTrackSafety is designed specifically for airlines to efficiently carry out required safety clearance checks on equipment's onboard aircraft, ensuring greater control on critical in-flight assets, passenger safety, and faster aircraft clearance.

Process mapped and defined workflow ready **EnTrackSafety** will guide the clearance team to accurately and quickly validate all safety parameters, instantly provide with the real-time compliance report to prompt corrective action to be performed based on the deviation.

EnTrackSafety precisely achieves those results while helping airlines reduce the clearance time for aircraft turnaround and operational cost. With **EnTrackSafety** in place, daily 'safety equipment checking' time per aircraft comes down significantly by over 80%."
